EVERY STUDENT SUCCEEDS ACT

88.9%
GRADUATION RATE
Class of 20-21

Wyoming's Consolidated State Plan for the Every Student Succeeds Act (ESSA) allows us to continue creating opportunities for students to keep Wyoming strong by ensuring they are ready for college, career, or the military. It is built on Wyoming's strengths and designed to have a single, coherent school accountability system which supports schools, while meeting federal and state requirements. To meet the federal requirements, Wyoming's ESSA plan includes:

- Achievement and graduation rate goals for students
- Measurement of how well schools are doing
- Priorities for the use of federal funds to support schools, students, and educators

The long-term goals are based on schools that performed among the 65th percentile of all public schools in Wyoming. In the 2015-16 school year, the top 35% of schools had a graduation rate of at least 88%. The long-term goal aims to have all schools perform at the same level within 15 years.

The long-term goals for reading are 59% proficient for elementary and 53% for high school. Math goals are 57% proficient for elementary and 47% for high school.

Teacher Qualification at Low Income vs Non-Low Income Schools

Inexperienced teacher: Any teacher with less than three years teaching experience in total.

Emergency/Provisional Credentialed Teachers: A teacher with an exception authorization allowing them to teach in an area other than that for which they hold a standard license and endorsement.

Out-of-field teacher: A teacher who has an educator license, but who does not have an educator license or an endorsement in the field they are currently teaching; an out-of-field teacher is designated as an unqualified teacher.

Civil Rights Data Collection (CRDC)

Since 1968, the U.S. Department of Education (ED) has conducted the Civil Rights Data Collection (CRDC) to collect data on key education and civil rights issues in our nation's public schools. The CRDC is collected every two years and gathers a variety of information including: enrollment demographics, preschool, math and science courses, advanced placement, ACT & SAT, discipline, school expenditures and teacher experience. The CRDC is a longstanding and important aspect of the ED Office for Civil Rights (OCR) overall strategy for administering and enforcing the civil rights statutes for which it is responsible. Below are the instructions for accessing the most recent state-level CRDC reports on the Office for Civil Rights website:

- ocrdata.ed.gov
- Select 'State and National Estimations'
- Select the Year
- Click the gray bars to read more information and access report links.

Federal School Performance & Accountability

To determine how schools are performing, several indicators are used. All schools are held accountable for Achievement, Growth, and English Learner Progress. Additionally, elementary and middle schools use Equity as an indicator, and high schools use Graduation Rate and Post-Secondary Readiness. Different measures are used for each indicator:

-**Achievement** is measured using the statewide assessment, the Wyoming Test of Proficiency and Progress (WY-TOPP).

-**Growth** is measured by comparing how students did on WY-TOPP compared to how they did on prior statewide assessments.

-**English Learner Progress** is measured by how well students learning the English language improve on an assessment of English.

-**Equity** is measured by focusing heavily on the growth of the students who scored the lowest on prior statewide assessments.

-**Graduation Rate** is measured by the percent of students that graduated in four years in the prior school year.

-**Post-Secondary Readiness** is measured by the percent of students that demonstrate readiness for college or career.

Wyoming cut scores were set according to the following: the bottom third of scores are below average, the middle third of scores are Average, and the top third of scores are Above Average. Schools are scored for every indicator that represents at least ten students. Scores of 1, 2, and 3 are given for Below Average, Average, and Above Average, respectively. The scores are averaged and the lowest scoring school is identified for support to help them improve their performance.

WY-TOPP

WYTOPP-WYOMING TEST OF PROFICIENCY AND PROGRESS

- WY-TOPP will assess students on the state standards in reading, math, and science. It will also assess writing at grades 3, 5, 7, and 9. WY-TOPP is administered online with a computer adaptive assessments.
 - This year Wyoming students will be assessed on the new science standards
- Teachers will have the option to access free interim and modular tests for grades K-10
- To see a sample test, go to wyoassessment.org/students.html
- LCSD#2 had 99-100 % participation from students in assessments

USED granted a waiver for the cancellation of the state assessment and federal accountability for the 2019-2020 academic year due to the COVID pandemic. Subsequently, the only achievement data available for the 2019-20 school year is the English Learner (EL) proficiency rates.

WY-ALT

The Wyoming Alternate Assessment for Students with Significant Cognitive Disabilities (WY-ALT) was administered for the first time in spring 2015. The WY-ALT is aligned to the Wyoming Extended Content and Performance Standards (WYECPS) and designed to allow students to demonstrate their knowledge and skills in an appropriately rigorous assessment.
