

CES Newsletter

May 2024

Dear Cokeville Elementary Parents / Guardians:

I hope you are doing well. We have a lot of fun events coming up this month that we are looking forward to. Thank you for supporting your child. Please watch for additional information as the final events of the year are scheduled. There is still a little time left for your child to make growth on their reading goal. Please continue to encourage your child to read so they can attend our end of the year AR water party.

Thank you for encouraging your child to do his/her best as we continue with end of the year testing. We are excited to see the growth students are making on their assessments and celebrating these successes with your students. There are several assessments that occur at the end of the year, and it can feel like students are taking a lot of tests. These assessments help us to better understand your child's needs going into next year.

Summer can be a great opportunity for your child to continue with their academic growth. Having students attend community literacy activities at the library and ensuring your student has reading time built into their summer can help your child to continue growing rather than regressing over the course of the summer. Summer can also be a great time to have your child practice math facts to ensure they stay solid going into the next grade level. One of the nice things about math facts is that they have a set answer so practice can be more independent. There are many online resources that can help. Thank you for building some academic growth into your child's summer activities.

We hope you have an exciting summer planned with hard work, fun activities, and hopefully some great weather to enjoy it in.

Sincerely,

Kenneth Dietz
Cokeville K-12 Principal

Baby Animal Days!
