# Clinicians

We are excited to have the Fager family as our clinicians this year!

John was an All-State wrestler at West Jordan High his junior year before a dislocated shoulder his senior season kept him out of the state tournament. From there, he was an NJCAA All-American wrestler at Western Wyoming Community College before getting married and finishing his collegiate eligibility at Clarion University in Pennsylvania. He was also the head wrestling coach at Layton High School for 14 years - taking the Lancers to two state titles and four runner-up finishes - and that's where the Fager children got their start in the youth wrestling ranks.

In 2019, the family moved to Evanston and John Fager continued assisting with programs out there and the children developed further in the sport. When Utah sanctioned girls wrestling, the Fager's come back to Utah and settled in at Corner Canyon where their name has become synonymous with state championships. - The City Journals
