

March 2021 Friday School

Friday School at Etna Elementary rocks! These great kids come to catch up on their school work, finish assignments, and even get ahead. At Friday School kids learn to love learning in fun and creative ways. We have an outstanding staff, committed to ensuring these students reach their goals. In March, we are fortunate to have 2 Friday School days: March 12th and March 19th. Students are invited to participate upon recommendation from their teacher and recent test scores.

At the end of each day, students provide us with feedback on how their day went, what they learned and how they feel about Friday School. We love their input! Here are a few of their comments:

"I reached my AR Goal."

"I am 10 times better at math."

"I learned how to communicate clearly."

"Math makes me smarter."

"I come to Friday School to get better grades."

"Practice makes perfect!"

"This helps me get ready for my math test."

"I got this really big math problem right in one try!"

Mrs. Colleen Cook
