

Every year Lincoln County School District #2 conducts a Preschool Census. The information gathered helps us plan for future programming needs, as well as to provide us with the contact information needed to reach out to next year's incoming kindergarten students.

If you have a child who is 5 years old and currently not enrolled in school, or younger, we'd appreciate you taking the time to fill out the online survey. If you choose to not complete the online census, there will be a census worker in your area who will gather this information during January. This survey only needs to be filled out once per year.

We appreciate you taking the time to assist us with our census this year!
